

PROVE

RECYCLING WORKS

A groundbreaking research project has proved that plastics from end-of-life cars can be recycled into new vehicle components without compromising on quality, performance or cost.

You are invited to come and find out more at:

Car Manufacture: Using Recycled Plastics

On **Wednesday 11 June, 10.30am- 3pm**

At **WilliamsF1 Conference Centre, Wantage, Oxon**

Speakers from **DTI, BPF, Automotive Recycling Task Force, CARE, RAPRA Technology, Nissan, LINPAC, MAHLE Tennex Filter Systems**

This free-of-charge event gives you the opportunity to:

- Speak to the Prove project research team
- Discover how recycled plastics feel, look and perform
- Learn how the generic specifications were developed and why they will work for you
- Find out how a major UK motor manufacturer will be progressing to production with two recycled components in 2003

And...

...a tour of the WilliamsF1 private Grand Prix collection is available to our delegates – if you book a place early enough!

To book your place complete the form overleaf and fax back to the BPF Events Team 020 7457 5045

Car Manufacture: Using Recycled Plastics

Please use one form per delegate and return to:

The Events Department, British Plastics Federation, 6 Bath Place, Rivington Street, London EC2A 3JE
Tel 020 7457 5000 Fax 020 7457 5045 Website www.bpf.co.uk
